

Real Gym. Real Weights. Real People.
Real Community.

Dear FFW Members,

We would like to thank ALL of you for the continuous outpouring of support you have given to Family Fitness Works during this trying time. We realize this has had tremendous financial ramifications for so many individuals but has also greatly impacted small businesses like the gym. Family Fitness Works is working hard to re-open our doors when the green light is given but under the current circumstances and the uncertainty of how long this might last, we may encounter difficulty doing so. The membership dues we charge monthly are what keep our doors open, lights on and ability to meet our financial obligations.

Many of you have reached out to us and have been so gracious to recognize these hard facts asking us not to stop your monthly dues. We realize not all people are in the position to offer support because of their own financial hardships but appreciate your efforts to help us have your gym to come back to when this is all over.

If you are able and willing to allow your dues to be collected, we would love to hear from you. We will continue to do our very best to weather this storm but humbly ask for your participation to save what is to many our second home and FAMILY!!!

Together WE can do this!!!

Sincerely,
Family Fitness Works
